

PROFILE

I was born on 04/09/2003 in Bruges.

I just graduated in Computer Science Software Engineering at HOWEST because I have a passion for devising sustainable software solutions that contribute to a beautiful future.

I live in Torhout, Belgium.

My native language is Dutch. In addition, I speak fluent English and have a basic knowledge of French.

I am a hard worker and dedicate myself to every project I am presented with.

EDUCATION

VHSI (Vrij Handels- en Sportinstituut) – Computer Management
2019 - 2021

My Computer Management training has prepared me broadly for IT careers, with in-depth knowledge and practical skills. I also got elected best computer scientist of my grade.

HOWEST University of applied sciences – Software Engineering
2021 - 2024

I embrace software solutions and learn to apply them diversely for a career in software engineering with an emphasis on teamwork, customer communication, and innovation.

WORK EXPERIENCE

Colruyt - Student Employee in the Store
2020 - 2022

Two years as a student employee at Colruyt Zedelgem: restocking shelves, cashier, customer service; enhanced social and teamwork skills.

HOWEST - Student Supporter ICT Helpdesk
Aug 2023 – Dec 2023

I support the Howest ICT Helpdesk in Bruges, where I combine technology and helpfulness, sharpening my technical and teamwork skills.

Aaltra – Intern Fullstack developer
Feb 2024 – May 2024

During my internship at Aaltra, I worked as a fullstack developer and handled IoT and BLE technologies. The most important aspect was the valuable work experience I gained.
